History of the Center

The idea for the Kentucky Artisan Center at Berea began locally in Berea, the city designated by the Kentucky Legislature as the “Folk Arts & Craft Capital of Kentucky.”

Since Berea College began its crafts work program for students, Berea has been home to continuing craft traditions and to both traditional and innovative

artisans. The Center was envisioned as a way of making the work of Kentucky’s artisans and the city of Berea’s offerings in the numerous galleries and shops, easily accessible to travelers on this most heavily traveled interstate.

Visible from I-75, the Center’s building was designed to serve as an example of Kentucky’s quality artistry. Designed by Lexington architects Charles Jolly and Carol Myers (Myers Jolly Architects), the building appears to be a cluster of small buildings not unlike weathered barn structures in the region. The Kentucky limestone used for the exteriors and much of the interior was quarried in Harrodsburg, Kentucky and laid by Kentucky stone masons under the direction of Bobby Cameron of Brodhead, Kentucky. Slate and copper roofs, and the interior’s exposed timbers and decking further the natural feel of the building.

The Kentucky Artisan Center, located at 200 Artisan Way, just off I-75 at Exit 77, opened on July 31, 2003, and is open to the public daily from 9 a.m. to 6 p.m. Admission is free.
